

LEAD in IBD

Leadership Exploration and Discovery

MODULE OVERVIEW

Develop the skills and confidence needed to lead successful clinical teams for the benefit of healthcare systems and patients within IBD.

For safe, kind and high-quality care to be delivered, effective leaders are crucial and can be developed at all levels of nursing.

This module is suitable for experienced IBD nurses.

- ✓ Learn strategies to tackle leadership challenges faced by IBD nurses in their existing or aspiring roles.
- ✓ Elevate your ability to lead with confidence, inspire your team and drive improvements within IBD care.
- ✓ Gain greater clarity on your strengths and how to maximise them within a team setting.
- ✓ Access an inspiring peer network where the support and learning continue beyond the weekend module.
- ✓ Provide clinical leadership to contribute to improved patient outcomes.

Register now

Places are limited to 12-15 per course, so don't miss out on your chance to build your knowledge and confidence in IBD now. To register visit www.LOGIC-Tillotts.co.uk/education

PRE-PROGRAMME

- You will receive short pre-work exercises, including reading and reflection, designed to prepare you for productive conversations during the weekend sessions.

FRIDAY – *Connect and Settle in*

- You will be introduced to your IBD nurse and skills trainer and informally get to know your professional peers. Opportunities to LEAD are around us every day, regardless of grade or role, this is an opportunity to share your own experiences to date and hear from your professional peers in an informal environment.

SATURDAY – *Building Confidence in Practice*

- You will gain an understanding of how to identify personal leadership opportunities in IBD care.
- Through workshop sessions, you will understand your leadership preferences, qualities and strengths within an NHS setting.
- You will focus on how to approach difficult conversations and how to raise concerns effectively. Along with enhancing positive team dynamics.
- In the afternoon, through 'real life' scenarios, you will begin to apply leadership strategies and gain the courage to try new things.

SUNDAY – *Bringing It All Together*

- On the final day, you will be putting theory into practice by engaging in group discussions.
- You will have the opportunity to develop an action plan for your own leadership scenario and gain input from your nurse colleagues and the course tutors.

POST MODULE

- Maximise the impact of your learning and personal development.
- You will meet up with your colleagues and the course tutors virtually 4-6 weeks after the weekend to continue to embed the learning and gain further support.

**Opportunity to
network with fellow
IBD nurses.**

**Fully-funded with
overnight accommodation
and appropriate
travel reimbursed.**

**Case studies and
interactive sessions
to enhance learning.**
